☞ The publishers will not hold themselves responsible for any error that may occur, beyond the amount charged for the advertisement.

Mr. V. B. PALMER is agent for these papers. Advertisements left with him will be immediately forwarded.

HEALTH FOR THE STATES!

HOLLOWAY'S PILLS.

EXTRAORDINARY CURE OF LOSS OF HEALTH, DISORDERED STOMACH, INDIGESTION, AND DETERMINATION OF BLOOD TO THE HEAD.

Extract of a Letter from Mr John Lloyd, of Erw ween, near Harlech, Merionethshire

To Professor HOLLOWAY,

Sir,—I avail myself of the first opportunity of informing you that for a very long period I was afflicted with a dangerous giddiness and frequent pressings in the head, attended by loss of appetite disordered stomach, and generally impaired health. Every means had failed to give me any permanent relief, and at length it became so alarming that I was really afraid of going about without an attendant. In this melancholy condition I waited personally upon Mr. Hughes, Chemist, Harlech, for the purpose of consulting him as to what I had better do, he kindly recommended your Pills, I used them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper.

I am sir, your obedient servant,

June 5 1852 (Signed) JOHN LLOYD.

MIRACULOUS CURE OF DROPSY.

Extract of a Letter from Edward Rowley, Esq., of Indian Walk, Tobago, dated April 8th, 1852.

To Professor HOLLOWAY

Dear Sir,—I deem it a duty I owe to you and the public at large to inform you of a most miraculous recovery from that dreadful disease, Dropsy, effected which, under God was affected by your Invaluable Pills. I was tapped five times within eight months and skilfully treated by two medical practitioner but could not get cured, until I had recourse to your remedy, and notwithstanding all I had undergone this miraculous medicine cured me in the course of six weeks.

(Signed) EDWARD ROWLEY

INFALLIBLE CURE OF A STOMACH COMPLAINT, WITH INDIGESTION & VIOLENT HEAD-ACHES.

Extract of a Letter from Mr S. Gowen Chemist, of Clifton, near Bristol dated July 14th, 1852.

To Professor HOLLOWAY

Dear Sir,—I am requested by a Lady named Thomas, just arrived from the West Indies, to acquaint you that for a period of eight years herself has been sadly suffered from continual bad health, arising from disorders of the Liver and Stomach, indigestion, loss of Appetite, violent Head aches, pains of the side, weakness and general debility, for which she consulted the most eminent men in the colony, but without any beneficial result, at last she had recourse to your invaluable Pills, which in a very short time effected so great a change for the better, that she continued them, and the whole family were restored to health and strength further she desires me to say, but she was witnessed their extraordinary virtues in those complaints incidental to children, particularly in cases of Measles and Scarlatina having effected positive cures of these diseases with no other remedy.

(Signed) S. GOWEN

These celebrated Pills are wonderfully effacious in the following Complaints

Ague	Fevers of all kinds	Scrofula or King's Evil	
Bilious Complaints	Gout	Sore Throats	
Blotches on the Skin	Head-ache	Stone and Gravel

IMPORTANT TO ALL

WHO USE

Steam as a Motive Power,

AND DESIRE

Safety and Great Economy.

An opportunity is now offered to all whom it may concern, to secure the exclusive right of manufacturing using and vending, in States and Counties,

IRVING'S

Circulating Safety Steam Boiler,

For Stationary Engines, Locomotives, Marine Boats on Rivers, Lake and Ocean Steamers, &c.—for advantages of this Boiler over all others now in use.

1st—ENTIRE SAFETY FROM EXPLOSION, being no more liable to explode than an open cauldron.

2—Less than ONE THIRD the amount of fuel is required to generate the steam obtained by other Boilers of the same power.

3—The cost of construction is reduced ONE-HALF.

4—They occupy but ONE-THIRD the space of other boilers, and may be applied to any engine now in use.

5—The expense of Furnace Grates will be substantially lessened by the small amount of fuel required, and the manner of using it.

The company GUARANTEE the reality of the above advantages. These conclusions are based on PRACTICAL RESULTS, many of these Boilers having now in use in and about this city. The invention has but just succeeded, after years of application, in bringing this valuable invention before the public. It stands alone and independent in its merits and if it has the qualities claimed, which is indubitable, the public will at once acknowledge its superiority over any other motive power.

Terms of sale made known on application at the "IRVING STEAM BOILER COMPANY" corner of Broadway and Park place New York over the New Broadway Bank.

Circulars containing terms of sale, &c., will be forwarded by mail, if requested, address as above.

N. England Truss Manufactory

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Ratchet and Spiral Trusses,

467 *Washington Street*, 467,

BOSTON.

ALL the various approved trusses constantly for sale. Ladies wanted on by Mrs CAROLINE D FOSTER, who has had twenty years experience in the business.

Strangers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, nearly 416 opposite to the subscriber's residence 467, where he will keep a full supply of Ready Made Trusses, for Gentlemen and Ladies, Youths and Infants Abdominal Supports of five or six different kinds, and such as Hull's, Chapin's Spinal, Cutter's, Fitch's, Ingall's, &c., &c.

☞ Ladies' wanted upon by Mrs Caroline D Foster at the above place.

The following certificate from Dr John C Warren of Boston, was given 16 years since, but will last forever

BOSTON, January 7, 1835

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster, to supply the deficiency occasioned by the death of Mr. Heath After some months of observation of his work, am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles

JOHN C. WARREN, M.D, Boston.

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary:

The undersigned having occasion to employ Mr. J. Frederick Foster, of Boston in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's success in the manufacture, and adapting them to the body, giving ease and comfort to the wearer, surpass (as far as our experience goes,) any other manufacturer of the article

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr J C Warren, as a sufficient guaranty for all who may favor Mr F, that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation. M STUART.

PATENTS.

American and Foreign Patent Office

AGENCY FOR BUSINESS

WITH U. S. PATENT OFFICE,

WASHINGTON.

No. 22 State Street, . . Boston.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors, by others, has made arrangements whereby applications prepared and conducted by him, THIRTY DOLLARS, (postage of *twenty*, as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats. Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,"

Late Commissioner of Patents.

"PATENT OFFICE,

"R. H. EDDY, Esq., Boston, Mass.

Sir—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully yours, &c.,

THOMAS EWBANK,

Commissioner of Patents.

Boston, March 19, 1853 to Sept 1 53

☞ Paper of any size and weight made to order at short notice. Liberal advances made on consignments of Paper and other merchandize. Cash paid for Rags, and all other Paper Manufacturers' Stock, at our Rag Warehouse. jan8'53 dly

Bank Note Protection.

A new plan to prevent Fraud by the Alteration of Bank Notes from low to higher denominations.

The Notes are divided into two classes.

CLASS FIRST, embraces the denominations of *one two, three, four* and *five dollars*. These are distinguished by strips at the *right* ends of the notes, composed of *geometric lathe work*, and running towards the centre, the number of strips corresponding with the amounts of the notes. Thus a one strip for one dollar, two strips for two dollars, and so on; and upon the centre of these strips a large figure, readily seen, designates the denomination of each note. In this class of notes, there are no borders on the *left* ends—which are occupied by vignettes and other work. The President's name will be placed under and near the *right* end strip work on all notes of this class, and that of the Register, or some other name above it, thus protecting the strip work from alteration—no place being left for adding another strip, either above or below the signatures

CLASS SECOND, embraces the denominations of *ten, twenty fifty, one hundred* and *five hundred dollars* On these the whole arrangement is reversed The strips of lathe work, (different from those used upon the other class of notes) commence at the *left* ends, and run towards the centre, the vignettes and other work being upon the *right*. On this class the Cashier's name is placed under the strip work, and that of the Register directly over it, their names being separated by one strip on a ten dollar note, by two on a twenty, three on a fifty, four on a hundred and by five strips upon a five hundred dollar note, *presenting a perfect contrast between the two classes of notes.*

Any person acquainted with the plan, could not be deceived by any alteration of any one of these notes in either class, from one denomination to another. The plan is a simple one, and is comprehended almost at a glance, from an examination of the notes; for although so many lines are required to describe it in words, the pictorial description is very short, and easily understood and remembered. The inventor, JAMES ATWATER, Esq., of New Haven, Conn., has secured his invention by caveat, entered at the Patent Office at Washington, and has made an arrangement with DANFORTH, WRIGHT & CO., exclusively, for its use upon Bank Notes.

Besides the protection against the *alteration* of the denominations of Bank Notes afforded to banks and the public by this plan, a very great security against *counterfeiting* is also afforded by the free use of the *geometric lathe work*, of which the borders are composed, and which cannot be successfully imitated, either with any other *machine*, or with the *graver*.

Great Spring & Summer Medicine.

Only 25 cts for a Pint Bottle, and 37 1-2 cts for a Quart Bottle of

The People's Medicine!

—OR—

DR. LANGLEY'S

Sarsaparilla, Yellow Dock, Wild Cherry, Prickly Ash, Dandelion, Thoroughwort, and Rhubarb,

ROOT and HERB BITTERS!

Decidedly the greatest Medicine in the world for the least money.

"Buy me and I'll do you good."

—oxo—

THIS invaluable compound has now been before the public three years, during which time nearly *Three Hundred Thousand Bottles* have been used, thus proving it the most popular Medicine of the age. No poisonous drugs or minerals, such as Opium, Antimony, or Mercury, under any of their hydra headed, kill-all forms, compose any part of these Bitters. The medicinal virtues of the best Roots, Herbs, and Barks in the world are so compounded as to act in concert with nature. They cure and eradicate from the system Liver Complaint,—that main wheel of so many diseases,—Jaundice, Bile, Dyspepsia Costiveness, Humors of the Blood and Skin, Indigestion, Nervous Headache, Piles, General Debility, and the host of kindred diseases arising from a disordered stomach, or bad humors blood. On the approach of warm weather most persons are troubled with the languor. Drowsiness, and general lassitude of the system This if neglected leads to Jaundice, loss of Appetite, Indigestion, Debility and decline. Langley's Bitters are just the thing to obviate all difficulties of the kind They regulate the bowels, stimulate the circulation, purify the blood and by a constant use keep off diseases so common in Spring and summer Coughs and Colds, are by its use broken up and cured at once. In short, this medicine is said for all ages and conditions and in all climates. It always does good, and never does hurt. No lying certificates, no flaming handbills or costly wrappers are used to puff it into notice. All who try them will say, as more than 200,000 persons can testify, that one Bottle will do them more good than forty Latin prescriptions of poisonous drugs, by which so many persons are annually killed.

The effect of this medicine upon the system is most wonderful.—Its healing, cleansing and purifying qualities operate with magic-like power upon all classes of diseases for which they are recommended. All who use them like them, because they ARE what they PROFESS to be.

Sold in Bangor, Oldtown, Orono, Brewer, Hampden and Frankfort and by all dealers in Medicines in Bangor. Ingraham & Fuller, and Guild & Harlow, Wholesale Agents to the trade, to sell again. 97 Union street, Boston, is the Wholesale Depot.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS ASTHMA, BRONCHITES, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the clear oil, the following case, by Prof. Stone, is sufficient to convince the most skeptical. The young lady was twenty-four years of age.

"Her disease was one of unmixed phthisic, which had been expected to terminate in the course of a few months. Sadly. The upper part of both her lungs were filled with tubercles; and in some places were beginning to soften. The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but without marked improvement. The Phosphate of Lime was then administered with the oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting w ll."

CAUTION.—On account of the great reputation of this Compound for all Lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only recipe in the United States for combining the pure Oil with lime in a proper manner Therefore as you value your health, purchase none except that manufactured by

For consultations with patients laboring under the various forms of disease

Ladies and gentlemen are respectfully invited to call

☞ Consultations free.

No Mercury given in any case whatever.

Drs CLAY and STOCKWELL are the most successful Practitioners in Maine, or in the United States, in the treatment of

Diseases of the Lungs,

Liver, Kidneys, Nervous system, Dyspepsia, Spinal Diseases, Piles, Epilepsy, Bronchitis, Asthma, Dropsy, Tumors, Cancer, Scrofula, Diseases of the Skin, Prolapsus Uteri, Suppressions, painful and imperfect Menstruation, Fluor Albus, and all that formidable list of diversified suffering which comes under the general head of Female Weaknesses.

CONSUMPTION,

This dire disease to our race, which has baffled the skill and experience of the most learned of the old school in medical science, can be

PREVENTED AND CURED

by Dr C's system of treatment, which has been adopted with unparalleled success in the treatment of this fearful disease.

His method of treating Diseases of the Lungs is peculiar to himself, and very similar to that adopted by Theophilus Thompson, M D, F R S, Physician to the Hospital for Consumption and Diseases of the Chest, in England.

Examinations of the Heart and Lungs, by Auscultation and Percussion.

The extensive experience of Dr Clay in examinations of the Lungs and Heart, by Auscultation and Percussion, in connection with an extensive acquaintance with Anatomy, Physiology and Pathology, enables him to determine the nature, extent, and present location of the disease, and whether *curable* or *incurable*. In the treatment of diseases of the Lungs and Throat, Dr. C has met with very great, and to him, as well as to others, very surprising success His medicines are so combined as to be applied directly to the Lungs

During the last five years Dr Clay has made more than 8000 examinations of diseases of the Chest, by Auscultation and Percussion—hence his extensive practical experience has given him a proficiency in that particular department, rarely possessed. apr14 3w&6w

Assessors' Notice.

THE inhabitants of the city of Bangor, and others having taxable property within said city are hereby notified and requested to bring in to the undersigned, Assessors of said city, true and perfect lists of all their polls and estates, real and personal, including money of all kinds on hand or at interest, and debts due more than one year, and all property held in trust as Guardian Executor, Administrator or otherwise, (except such as is exempted by law from taxation,) which they may be possessed of on the 1st day of May next and to be prepared to substantiate the same by oath

And for the purpose of receiving said lists, the undersigned will be in session at their office, during the business hours of each day, from the first to the fifteenth day of May next, Sundays excepted. And any personal examination of property by the Assessors, will not be considered as a waiver for neglect of any person in bringing in true and perfect lists, as required by law

Those persons who neglect to comply with this notice will be barred by law from appealing from the decision of the Assessors, on their applications for abatements

The American Press.

For a year or two past strong indications have been exhibited that the American Press was destined to be one grand "SCIENTIFIC JOURNAL." These indications have already become, to a considerable extent, a reality. Said a Senator from the South, not long since: "The series of scientific essays I sent to our editors are published regularly in all our papers, and I hardly know what they would do without them." Papers in all the States now make it a point to furnish to their readers something on scientific matters. In midst of the highest political excitement something in the way of science found place in numerous political journals. During several years' respite from political excitement now in prospect, the whole American Press will doubtless give scientific matter a prominent place in their columns; certainly, as schools are now seeking for appropriate lessons of instruction from that source A more instructive lesson, either for schools or families, cannot perhaps be readily found than the following little manual of geology, describing twenty-five elementary specimens, showing the elements and the structure of the earth. The numbers are founded on a fundamental classification, of rocks, designed to aid young minds in collecting, classifying, and labelling minerals for the use of their homes and their schools.

The case is very plain and very simple that if the papers—*all the papers*—in our country should give place to this brief manual of geology; and the schools—*all the schools*—of our country should use the papers containing it, both for reading and study in special aid of collections, a grand *simultaneous movement* would be made for the advancement of American science; a hundred thousand schools uprising in a body, going forth to take a lesson from the "OLDER VOLUME OF GOD," every leaf, line, word, and letter of which declares that its author is divine and glorious.

GEOLOGICAL CABINET:

An Introduction and Aid to Reading.

By JOSIAH HOLBROOK.

The Bible is a book of examples, founded on principles for the regulation of human conduct, especially so for the management of the mind and soul, or intellect and heart The example furnished by it, as a *starting point* in the pursuit of knowledge, is not only appropriate, as founded on divine wisdom, but is equally simple, beautiful, and sublime. "In the beginning God created the heavens and the earth," is the sentence commonly referred to as a specimen of the very highest sublimity. Its sublimity is in its simplicity, connected with the glorious truth uttered. A sentence more full of instruction never has been, probably never will be, uttered. It is also pre-eminently fitted to an inquisitive young mind, eagerly observing surrounding objects, at the same time rapidly and successfully, because *practically*, learning them.

If the elements of the Created Universe form the "*first lesson*" of the Creator to his creatures, why not follow the example thus set us by Him who created mind, as a *starting point* in the training of mind? In accordance with this example of Divine authority, the elements of our globe are selected as a "*first lesson*" for children. A "GEOLOGICAL CABINET" is prepared, consisting of twenty-five mineral specimens, so selected, arranged, labelled, and described as to show, almost at a glance, the elements and structure of mountains, rocks, and soils, exactly fitted to gratify the eager curiosity of *every child* to learn what he sees, not only by seeing but by handling, examining, comparing, classifying, and other steps for acquiring the most substantial knowledge by the most thorough modes of learning.

"*Nature before Books, and Drawing before Writing*," is a motto always in accordance with common sense, and now completely tested by experience, both in this country and Europe. It is already widely adopted on both continents, and is certain soon to be observed by all persons, everywhere, in the early instruction of children. The "ALPHABET OF GEOLOGY," by preceding the "ALPHABET OF BOOKS," changes the latter from an unmeaning, irksome task to an instructive, delightful lesson; learnt rapidly and certainly, because practically and agreeably.

The principal families of rocks, or geological formations, are the granite family, composed of three members, and forming all the highest mountains in the world; the hornblend, or trap family, consisting also of three or four members, widely scattered over the earth. Lime formations, very abundant, various, and useful; mag

said. The two combined are the principal and essential ingredients of all soils, and of course would be fully and familiarly understood by farmers. Felspar is used for making China ware, or porcelain, as quartz is for glass. It is scratched by quartz, and breaks more in the form of lamine, or diamooth table surface, giving the appearance of a collection of small scales. Its color is white, reddish white, flesh-red, sometimes brown, and occasionally other colors. It is far less various, and less beautiful in its varieties, than quartz. When it has a glassy appearance, and is translucent, it is called adularia. Labrador Felspar, found exclusively in Essex county, (N Y) is opalescent, or has a play of colors, as it is exposed to the light in different attitudes.

(To be continued.)

Whig and Courier.

Jonathan S. Sayward, Editor.

SATURDAY, APRIL 30, 1853.

There is great mechanical skill in our city engaged in the manufacture of coaches, carriages and other carriages The manufacture of these articles has grown up here under a very heavy competition from abroad so that the best materials and the best workmen have been employed here, and the severest test been applied to the quality, strength and durability of carriages, until a high reputation has been earned for those of Bangor make So sure as a man is to get a carriage of graceful appearance and great strength from the establishments of Messrs that we believe our stable keepers, other merchants and others who make use of carriages would greatly prefer one built in this city from any other carriage factory in New England

The building of first class carriages was commenced in this city several years since by Messrs Stanton, & Co, and their successful practice has taught the art to others until now it will be hard to find any place in the United States where greater skill and talent, we may say actual genius are engaged in this kind of business than in Bangor

We intended to make these remarks from having in an accidental visit to the factory of Messrs D W Merrill & Co, several carriages in the course of construction of fine form and exquisite workmanship, designed for our own citizens

We have often visited with satisfaction the factory of Messrs Winton & Co, and noticed their excellent workmanship and their arrangements to carry on an extensive business in a thorough manner

We hope to see the carriage business fully established and extended in our city, so that manufacturers here shall be able to command the entire market for good carriages in this city and throughout the whole State of Penobscot There is no good reason why it may not be done, as Bangor carriages are fairly entitled to this market, by their good taste, their industry and their honesty.

We have an idea that it would be well for some one to get up a strong, medium priced, commodious family wagon of good general appearance, not of the highest finish, and so arranged as to be easily converted into a covered wagon for taking the family to meeting or an open wagon for taking corn to the mill or meat to market. It seems to us that the farmers in the country in their increasing prosperity need such a carriage and would be likely to purchase it generally and thus a large market be found.

The traveling season seems to open early this year. The facilities for travelling by steamboat between this city and Boston are greater than ever before and of high order and in good hands Two boats connecting with the cars of Portland for Boston, the civilized world and the rest of mankind. A boat every day from Portland with five express trains from Boston each week Three boats direct to Boston two of them twice a week each If people are tempted to visit our city the present season will not be for the want of numerous and elegant accommodations, and low fares.

The enterprising proprietors of the public houses in the city have been effecting repairs in their houses and are putting every thing in first rate shape for the reception and accommodation of a large number of visitors. Soon their tables will be daily supplied with the plump trout from the cool waters of the Penobscot, the early productions of Mr. Beacroft's garden, the fragrant and straw berries from the fields and the sweet cream from the dairies. There is a good time coming this season and every body will be there and all the bodies great and small. Let us have this year and enjoy it.

☞ Provision have been made for the season for instructing the foundation for the new City House. The small building in the rear of the Market House is already partially removed and the space it occupies is to be added to the room for the workmen on the main building. By this arrangement the stalls will remain in its present position for some time to come, the rent affording a compensation for the extra expense and trouble to the proprietors for building the Custom House.

☞ The City Marshal with the police and also Russell searched several boarding houses in Washington street yesterday morning In some houses the liquor was kept in pitchers.—In some of them the inmates succeeded in turning out the liquor but in the other the pitcher was broken and the portion of the liquor was secured, and Benjamin C Burlingham was convicted and paid a fine of $20, and costs $4.18. These were the only liquor houses kept in the city.

☞ Hon Wells Esq, has recently removed from his dwelling two large elm trees one of them over five feet in circumference — The work was neatly performed and with very little injury to the trees. They will doubtless thrive in their new location.

☞ The dwellers on Broadway have been conferring a great benefit upon themselves and the public in transplanting a large number of good shade trees.

We return our thanks to Libbey's Express for papers received yesterday in advance of the mail.

☞ We have urged pretty strongly, but not too strongly, upon our citizens the propriety of planting both ornamental and fruit trees. It is well to plant trees and it is important that not only good trees be selected but that the work of planting be properly attended to. It is all important, let it be borne in mind, that in planting trees almost anywhere and particularly on the borders of a lot or by the side of a street that the true base line be regarded. First examine the matter and ascertain where the base line should come and dig away or build up in order to plant the trees upon the right grade. We have noticed some recent violations of this and therefore deem the suggestion necessary.—Let us add to this that it is a mistake and a fault to plant trees at such a distance from the line of a side walk when one shall be built—five feet is perhaps the best average distance for planting them.

☞ May-day will be celebrated on Monday and on that day all the public schools will be closed in order to allow the children and youth of the city to take a run and enjoy a pleasant social festival amidst the first sweet blossoms and the expanding buds of spring, to which these little folks so aptly correspond

Arrangements have been made for numerous parties and it there does not come a drenching rain, of which there are some indications, the day will be a merry one

Great Fire in Boston—Fifty Families Burnt out.

On Thursday a fire broke out in Endicott st in the White wright shop of Mr Bloom which with several stables and dwellings were consumed Several of the buildings were occupied by Irish families and nearly fifty families were rendered houseless The loss in buildings is stated at not over $12 000 with but little insurance A Bank Book containing $500 was stolen from Mr J. E Stephenson, a baker, who was burnt out

☞ The anniversary of the Bermuda Mechanics Association was celebrated with much ceremony, on the 9th The address on the occasion was delivered by Rev G. A. Boardman, of New York

☞ The weather is delightfully fine of late, though rather dry The season is some two weeks more forward than usual and a gentle rain would give the grass a fresh start and soon cover the fields with a beautiful carpet.

☞ The Boston Journal states that the Money market continues well supplied at moderate rates of interest The figures remain no minal at from 7 a 9 per cent, with scanty negotiations

☞ The Ladies Levee in behalf of the poor and needy, held at the City Hall on Thursday evening, was a very agreeable affair and yielded to the funds in the hands of the missionary about one hundred dollars

☞ A quarter of a million dollars worth of new silver coin has been issued in quarters, dimes and half dimes.

CALIFORNIA ITEMS.

The intelligence from the mines is highly interesting and encouraging The quartz mines are the favorites Extraordinary yields are reported at Mariposa These mines are said to be doing better than any others in California

Gigantic projects for tunneling are being formed, and with good prospects of success — The largest of these is the proposal to tunnel a mountain a short distance below Carson s Creek for the purpose of taking the entire river Stanislaus through it when its original bed will be prospected The tunnel, would be 1800 feet long, and would lay bare some two and a half miles of the bed of the river—the richest mining in the country Without going into particulars, the accounts from all quarters are of the most encouraging character

Among other matter with which attention had been occupied, was the discovery that $00 000 worth of Prussian coin, the value of 12½ cents, had been thrown into circulation as 10 cent pieces The banking-houses and stores promptly refused to accept them at more than their true value, and they probably will be returned to the source whence they came

Indian depredations were increasing to an alarming extent, more especially in the neighborhood of Shasta, Columna and Trinity counties The efforts of the U S troops to check them had only been partially successful, and in one of the engagements, Lieut. Edward Russell, of the 5th Infantry, was killed

The summit of Mount Diablo is whitened with snow, a somewhat unusual occurrence at this season of the year

Great excitement in Mexico.

NEW ORLEANS, April 26

The steamer Texas, from Vera Cruz arrived bringing Maj. Gen. H. Farwell, bearer of despatches from the U. S legation at Mexico He reports that an express messenger arrived at the city of Mexico on the 8th bringing the news of the occupation of the Mesquite Valley, in Chihuahua by the Governor of New Mexico The intelligence had caused great surprise, and a determination was expressed to drive out the Americans at the point of the bayonet. An armed force was ordered to proceed immediately to the scene of action, to assist the Governmen. of Chihuahua in expelling Governor Lane and his troops.

A delegation of the Mexican authorities waited upon Judge Conkling on the 9th of April and made a solemn protest against the whole proceeding Mr Farwell says that intense excitement exists in Mexico among all classes Governor Trias of Chihuahua, has replied to Governor Lane's proclamation in a powerful vindication of the rights of Mexico, in behalf of which he produced the most unanswerable documents.

CHICAGO, April 28.

The Railroad Disaster at Chicago.

The Coroner's jury last night rendered the following verdict on the bodies of 16 persons killed by the late railway collision, viz.

That the deaths were occasioned by the gross carelessness of Moses Taylor, the Conductor, Thomas Bachan, Engineer of the Michigan Central Railroad, and Herbert L Whitney and Edward Davis, Engineers on the Southern Railroad.

The above parties were held to wait the action of the Grand Jury.

WASHINGTON, April 27.

The Postmaster General has annulled the contract made by the late administration, amounting to $50,000, for carrying the mails to California.

Mr. Borland will leave for Central America in a few days.

Among the names of the saved among the crew of the steamship Independence, lately lost on the California coast, we see that of James Merrill, Penobscot Co. — a son of Mr Francis Merrill, boat-builder, of this city formerly

Religious Summary.

The Western Watchman says. "One of the noticeable signs of the times is a general waking up of Baptists, to the consequences likely to follow the alarming destitution of ministers among us. It is known that we have 4000 churches destitute of pastors."

The Jews' Synagogue of Congregation Rodolph Shalom, in New York, was recently consecrated with great solemnity to the worship of God. About 1500 persons were present. The exercises were very interesting. Rev. Dr. Lilienthal delivered an eloquent discourse in Hebrew, and Dr. Raphall delivered an address in English.

The plan of offering a prize Bible to each child in Illinois, who will commit to memory the whole of the Westminster Assembly's shorter Catechism, has succeeded so well that about $000 children are now engaged in committing it to memory The seed thus sown, will bring forth its appropriate fruits in due season.

The *Catholic Messenger*, of New Orleans, states that Rev Oliver A. Shaw, (formerly an Episcopal clergyman) has abjured the Protestant faith and connected himself with the *true* Church.

A family of the Mahommedans under the instruction of Mr. Dodd, Missionary at Salonica, has renounced that System and embraced the Christian The family consist of seven persons The husband, wife, four children and the wife s sister As apostacy from Mahommedanism is punishable with death, they fled to Malta

Rev Elijah P Barrows, recently Professor in the Theological department of Western Reserve College, has been appointed Leaning Professor in the Andover Theological Seminary

The celebrated Dr Kalley, whose labors in Madeira, were so remarkable and so successful as to call down the persecutions of the priests, is now in this country, to pay a visit to the colony who were driven from Madeira, because of their love for the Bible. This colony is settled in Illinois

A new Romish church, called St Joseph s, was consecrated in Brooklyn, last Sabbath forenoon, by Arch Bishop Hughes, and in the afternoon Mr Hughes laid the corner stone of another Romish church that of St Stephen the Martyr, in New York city, on the corner of twenty eight street and Lexington Avenue The Sermon was by Dr Cummings from Psalms, 47 9—12

It is stated that the collections made in the various Romish churches in New York on Easter Sunday, in behalf of the Roman Catholic Orphan Asylum, amounted to $3063 41 Protestants, learn a lesson

The Scotch Episcopal church, number seven Bishops and one hundred and forty seven clergymen, six of the former, and sixty two of the latter, being of the English ordination There are 100 churches and chapels, with 83 schools The houses of worship of the Dissenters are not allowed to be called churches, *but only chapels*

The Welsh Congregational church in Radnor, Ohio, under the pastoral care of Rev L Evans, has been blessed with a precious revival of pure Religion. Some 30 have been added to the church

The *German Reformed Messenger* states that Rev Mr Heltenstein and the German Reformed congregation of Germantown Pa, have made arrangements for an immediate secession to the New School Presbyterians. The reasons assigned are the Pusseyistic doctrines of Dr Nevin, virtually approved of by the German Synod

The Rev Dr Canning, of London, has received a present of a thousand guineas and a service of silver plate worth 300 guineas, from his friends for his services in the Popish controversy.

The Boston Herald of the 25th inst., says yesterday Mr Cook, the Special policeman of the Worcester Railroad Depot, was invited to attend the Sabbath School at Church street Church, where he was presented with an elegant gilt Bible, by Master Wheeler, in behalf of the School The present was a handsome testimonial of their regard for his services, and was unexpected, and more to be valued since Mr C was not a teacher of the School. "Mr C is a policeman on christian principles"

The Boston *Transcript* says Madame Sontag quietly attended service at the Warren street Chapel on Sunday afternoon One of the choir gave her a book and she united with the children in all their hymns with evident delight.

A distinguished Oneida chief, named Skenandoah having yeilded to the instructions of the Rev Mr Kirkland and lived a reformed man for fifty years, said, just before he died, in his one hundred and twentieth year, I am an aged hemlock, the winds of one hundred years have whistled through my branches, I am dead at the top, (he was blind) why I yet live the great good spirit only knows. Pray to my Jesus, that I may wait with patience my appointed time to die, and when I die lay me by the side of my minister and father that I may go up with him at the great resurrection

If God's facts are his arguments for his Existence and his Attributes, we see not how any reasonable man can be an Atheist or an Infidel

IOTA

THE GREEK OF HOMER A LIVING LANGUAGE An article in the Westminster Review has been made by Mr Blackie Professor of Greek in the University of Edinburgh, to reform the pronunciation of Greek in that University He is teaching his students to pronounce Greek as they do in Greece, insisting that it is not a dead, but a living language—as any one may see by hearing it a Greek newspaper Prof Blackie gives an extract from a newspaper printed last year at Athens, giving an account of Kossuth's visit to America, from which it is evident that the language of Homer lives in a state of purity, to which, considering the extraordinary duration of its literary existence—two thousand five hundred years at least—there is no parallel, perhaps, on the face of the globe. After these remarks Prof Blackie gives an extract from a modern Greek newspaper, of the year 1852, which does not certainly occur three words that are not pure native Greek, so slightly has it been corrupted from foreign sources. [N. Y Evening Post.

The Lynn News says that Jesse Hutchinson is sick at Cincinnati of Panama fever.

Oct 15 1852 tawd&w1y

This celebrated medicine skilfully composed as it is of the most healing balsams and penetrating oils can never fail to cure almost every affection that could be alleviated by an external remedy Its superiority over all other liniments is proven by the immense sales it performs and by the great and constantly increasing demand There is no dwelling within the limits of our entire land THREE MILLIONS OF BOTTLES, and there is scarcely a few persons found who do not bear testimony to the highest praise for the extraordinary powers of Nothing perhaps since the creation of the world has been so successful as an external remedy for all diseases, as this wonderful curative When applied it instantaneously diffuses itself through the whole system, causing the frightened nerves to relax the muscles to cease pain and creating a most delightful sensation Read the following remarkable cure which can be attested to by hundreds who were fully acquainted with the whole circumstance

CHRONIC ENLARGEMENT OF THE TONSILS

My daughter, when six months old was taken with a swelling in the tonsils, it grew larger and larger, till when she was two years old she had great difficulty in swallowing her food Every night which was kept fearing she would suffocate The best doctors attended her but could give no relief. I took her to the most eminent doctors in the East, they said there was no help for her but to outgrow it. With a sad heart I returned home with her whose life became so much more dear to me since the doctors had to be called in again they decided that the tonsils must be cut off. This was the only hope of any relief My wife would not consent to this and she determined to try your Liniment, which gave relief at the very first application, and by a continuance she entirely removed. She is now ten years old and healthy and hearty as could be desired Your Liniment is also the best in use for sprains, bruises cuts, burns headache, etc., and it will cure when the most severe pain in a few minutes It also cured rather suddenly my cow in a few days

GEORGE FORD

NEVER FAILING REMEDY!

Holloway's Ointment.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING

Copy of a Letter from Mr Thomson Chemist Liverpool dated August 9, 1852

To Professor Holloway

Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills which has astonished every person acquainted with the sufferer About ten years ago Mr W Cummins, of Saltney Street in this town was thrown from his horse whereby he received very serious injuries, he had the best medical advice at the time and was afterwards one inmate of different infirmaries yet he grew worse and although a malignant running ulcer set in on his hip which soon completely crippled him that he could not move with or crutches for nearly 10 years recently he began to use your Ointment and Pills which have now healed the wound strengthened his limb and enabled him to dispense with his crutches so that he can walk with the greatest ease and with renewed health and vigor (Signed) J THOMSON

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED

Copy of a Letter from Mr Hird Draper of Ready near Godalming dated March 1st 1852

To Professor Holloway

Sir—Some time since, one of my children was afflicted with a terrible eruption over its body and limbs I obtained the advice of several eminent Surgeons and Physicians by all of whom the case was considered hopeless At length I tried your Ointment and Pills and without exaggeration the effect was miraculous for by persevering in their use all the erupts as quickly disappeared and the child was restored to perfect health

I previously had a child from a similar complaint and I firmly believe had I made the same adoption your medicines she would have been saved also I shall be happy to testify the truth of this to any enquirer (Signed) J HIRD Draper

CERTAIN REMEDY FOR SCORBUTIC HUMORS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE OF A BAD LEG

Copy of a Letter from Messrs Walker and Co Chemists Bath

To Professor Holloway

Dear Sir—Among the numerous cures effected by the use of your valuable medicines in this neighborhood we only mention that of an old lady living in the village of Preston about five miles from this city She had ulcerated wounds in her leg for many years and latterly these increased to such an alarming extent as to defy all the usual remedies her health rapidly giving way under the suffering she endured In this distressing condition she had recourse to your Ointment and Pills and by the assistance of her friends, was enabled to persevere in their use until she received a perfect cure We have ourselves been greatly astonished at the effect upon so old a person as to be upwards of 70 years of age We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful case, either personally or by letter

A private in the Bath Police Force also has been perfectly cured of an old scorbutic affection in the face, after all other means had failed He states that it was entirely by the use of your Ointment and speaks loudly in its praise

We remain dear sir

Yours faithfully

April 6 1852 (Signed) WALKER & CO

The Pills should be used constantly with the Ointment in most of the following cases

Bad Legs	Corns (Soft)	Scalds
Bad Breasts	Cancers	Sore Nipples
Burns	Contracted and Stiff Joints	Sore-throats
Bunions		Skin diseases
Bite of Moschetoes and Sand Flies	Elephantiasis	Scurvy
Coco-Bay	Fistula	Sore-head
Chegoe-foot	Glandular Swelling	Tetters
Chiltblains	Lumbago	Ulcers
Chapped hands	Piles	Wounds
	Rheumatism	Yaws

Sold at the Establishment of Professor HOLLOWAY 244 Strand (near Temple Bar) London, and by all Venders of Medicines throughout the United States, in Pots at 37½ 87½, and $1 60 each Wholesale by the principal Drug houses in the Union and by Messrs A B & D SANDS New York

☞ There is a considerable saving by taking the larger sizes,

French Zinc Paint.

GEO W EMERSON No 4 Smith's Block Bangor has just received, direct from the manufactures a large supply of their Patent White Zinc Paint and is prepared to furnish the article at such prices as cannot fail to supersede the use of White Lead as a Paint

Seventy five pounds of this Paint will cover as much surface as 100 lbs of the best pure Ground Lead—is used in the same manner and with equal facility as the latter while it far excels it in whiteness and durability being unalterable by noxious gases and exhalations The merits of this Paint have been fully tested in this country during the last three years and the most experienced painters have given it the preference over White Lead when the latter article was selling at from 25 to 36 per cent under it present market value

Safety Metallic Ladders

For Buildings, and a perfect Lightning Rod Combined.

THE subscribers having the agency of a new Inventions, Washburn, Hand & Cook's Patent Metallic Ladders and Lightning Conductor for Bangor and vicinity are now prepared to attach them to Factories Dwelling Houses and Buildings of every description in the most thorough and workmanlike manner These Ladders are strong and durable and with the improved Lightning Conductor attached will form a most perfect protection from the ravages of fire either from lightning without or accident within They come recommended by a strong array of names of those who have given them a trial, among which is that of Prof Silliman of Yale College, which is good evidence that this is a good invention, and also forming a perfect lightning conductor On the ground of economy they are just the thing costing but 75 cents a foot without the rods and bolts with them, giving you a good permanent ladder that is always on the back of your house and of course not liable to be borrowed or lent Those interested will please call and see them attached to a model of a building and the manner of connecting the rods

DR. MORSE'S
INVIGORATING CORDIAL!

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINANCE, OR NOCTURNAL EMISSIONS, &c. The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Exertion, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passions in riper years, renders it the most valuable preparation ever discovered In fact as a remedy for the above complaints it stands unrivalled and alone There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest authority the Faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the mental powers no long sought for and never before found, the only agent that can administer to MIND DISEASES. It will remove all nervous affections DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY CONFUSION, thoughts of Self Destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed by the baneful Excesses, or evil practices to which mankind is addicted by some fatal false delusion, &c., were insensible. This however is not the fact
DR. MORSE'S INVIGORATING CORDIAL, has and is daily curing those complaints relieving the mental and bodily incapacity of all those who suffer as the following testimony of the names recorded will conclusively show:

Dr Woodward of the Massachusetts Insane Hospital writes of one of his patients being cured by using this cordial thus — It gives me pleasure to inform you that one of my patients while in Boston, procured some of your Cordial He tells me that after using but a single spoonful since he again cheerfully taking it, while he took the two or three weeks When he applied to me any Dr. Woodward I thought it hardly possible for him ever to regain his full strength I prescribed what other medicine used in those cases in the hospital, but they had no effect In the meantime he purchased some of your Cordial which has effected a cure where no other medicine would I shall ever recommend it whenever an opportunity occurs.

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of a cure out of the question, and the patient seeks no other proof than the most conclusive testimonials to show that the great remedy he enjoys was not accidently obtained but is thoroughly tested in many cases and apparently miraculous virtues In all directions difficult to manage than those of the more durable but still the use of this valuable remedy for a few weeks will relieve and often entirely cured.

TESTIMONIALS

have not in a single instance that has been authenticated, given their sanction to any other preparation for the above complaints It has, in many violent and deep rate cases effected relief where other patients had given up and abandoned all hopes of future health by medical practitioners of the first professional character

THE COMMON EXPRESSION

Of those who have used this Extract is—"I had heard your Cordial highly spoken of but was one of the incredulous but urged to its trial by having tried various medicines sold for the same purpose (without success) without deriving any benefit. I had since I give up all hope of obtaining relief when I purchased some of your Cordial and finding much benefit from it in benefitting me—but it has I feel stronger, have had no sensations since although it is not three weeks. I am satisfied that half a dozen bottles I took will cure me

Another says — I had consulted the most distinguished physicians. Some said I could not be cured others prescribed this thing and that but I found no relief no pain up to the
